Comments & Conclusions: Lanes 4, 5 are the test sample Cordyceps militaris (CORD30102218). Lanes 2, 3, 6, 7, 8, are the reference samples used for comparison. This test sample, Cordyceps militaris (CORD30102218) is consistent with the chromatographic profile of the reference samples of Cordyceps militaris, used above. **This test sample Cordyceps militaris (CORD30102218) has characteristics of Cordyceps militaris fruiting body.**

NOTE: The above conclusion may be a function of the natural variance found in botanicals &/or the extraction process used to create specific extracts. The growing and drying conditions, age, seasonal variations, geographic location, extraction solvents, etc. all play a role in the phytochemical fingerprint of botanicals as well as their extracts; hence, chromatographic variations are expected.
